Mastercrafted from thread to fabric

Shree Ram Synthetics Pvt. Ltd.

OUR STORY

From yarn to fabric, since 1987.

Benny Cotts is the brand of Shree Ram Synthetics Pvt. Ltd., a textile house based in Bhilwara, Rajasthan, the heart of India's synthetic textile industry, and privately held today.

Our yarn trade began in 1997, sourcing from the spinning mills of the Bhilwara region and supplying weavers across the country. In 2007 we moved into manufacturing of our own, beginning with 16 looms and a capacity of 25,000 meters a year at our unit in Atoon.

Today that unit produces 22 lakh meters of fabric annually and we continue to trade roughly 3,000 tons of yarn each year, serving more than 326 B2B clients with uniform fabrics, dyed suitings and industrial textiles.

WHAT SETS US APART

Vertically integrated

Sourcing, blending and weaving all under one roof, so quality is controlled end to end.

Solar-supported mill

A rooftop solar array offsets a meaningful share of our energy-intensive weaving, trimming our footprint.

Consistent dye lots

Reliable colour and hand, lot after lot, matched to your approved standard.

Predictable lead times

In-house capacity means orders are planned and delivered on schedule.

Industries We Serve
